Tree

Tree Prior
Transmission model that describes the tree generating process

Model that describes the rates of substituion between nucleotides

HKY

Probability of the alignment given the tree and sequence evolution model

Model that describes rate of evolution along the tree branches

STRICT CLOCK

MULTI-TYPE BIRTH DEATH MODEL

Alignment

Sequence

nucleotide frequencies

Sample types
HUMAN - MOOSE

Origin

sampling proportion

Tree Likelihood

Sample dates

kappa

Substitution model

Branch rate model

becoming uninf. rate

reproductive number, Re

Re between types
